Reviews of CD Key Reader An easy tool that helps you to retrieve your Windows product serial number, was reviewed by Robert_Rivas on 01 Jan 2007 Makes it easy A free utility that helps you get the serial number of your Windows installation was reviewed by Diantha on 13 Dec 2005 Good program Overall very good software that allows you to get serial numbers of installed Windows operating systems. The software is easy to use and does what it is designed for. I don't have any problems with it. I give it five stars. Excellent An excellent program was reviewed by Zdobel on 17 Feb 2008 Just what I wanted This is an excellent program and well worth the price. I needed to replace a system with windows and so I had to use a windows disc and use the 'remove' program to remove windows from my old system and the program then showed me the serial number of the windows system so that I could then transfer the licence over to my new system.

Q: How to use associative array to represent this syntax in PHP? I have a function that receives multiple \$action arrays as parameters, and it returns a collection of actions. Each action is stored in the \$action array as an associative array with action name as the key, and the action execution as the value. Here is what the associative array looks like. \$actions = array(array('name'=>'1'), array('name'=>'2'), array('name'=>'3'), array('name'=>'4'), array('name'=>'5'),
