
Serial Number Bfd2

For BFD2 or BFD3 it is highly recommended to install full install. If you choose the default "Full", automatically registers the serial number. You can remove it using the command `rmdir /S /Q "C:\Program Files\Borland\DelphiX.exe" /S /Q "C:\Program Files\Borland\DelphiX.exe" /R`. This will delete this file. When installing the file, you can also select the "Advanced" installation type, or "Advanced". If you select this installation type, additional settings will be made in the dialog box. You can change additional configuration options, including settings for the registry file or startup options.
