What's new in Crazy Pixel Streaker - Official OST:

A cool release of rather handy outfits is up for pre-order as we're not sure this is the last one we'll see for GX-20. Even with all the others, this is our first GX-20 player, the PlayStation 4 Tsubasa. We asked for the Murasaki Outfit Set to be added, as it grants you the best outcome on the Tsubasa. The outfit is distinguished by a set of pants with a bit of an 80's feel to them, and going down, a blouse with goggles as well as a jacket with Japanese-inspired patterns. With it being a set, this unfortunately only comes in one. If you already have the Murasaki outfit set, this one isn't for you. Reflexions - Murasaki Outfit Set 2 [V1.1] Reflexions - Murasaki Outfit Set 2 [V1.1] Here's a better version of the above picture, in case you can't read the pixel quality on the pics. Paint Chipped When you first get the set, you'll see a black and white pic of a red Murasaki hair bow. It is, sadly, the last pic we see, as after that, you'll be sent back to the home screen from the confirmation page once more. As is expected, the final set is a flashier version of itself, with a bit more red. Necklace Removed As this is a V1.1 version, you'll notice that the necklace it's replacing at the collar of the jacket has been removed. Unfortunately, all colors have been removed as well. So get in line folks, we hope we get to get more versions. So, we take a new look at the Murasaki Outfit Set 2, that you've gotten from the 25th of December, which is the day the updated version for the Tsubasa PS4 released. We also take a look at the other first release of today, the Tsubasa.
