To find the FCC's latest news article on ISP fees, go here. To make sure you know how to recognize and demand your rights as an Internet Service Provider, review our follow up article: Doing The Math On Your ISP Fees. If you are not contacted by your ISP to renew your contract within the next 60-90 days, please email us at local@broadbandnow.comThe project explores questions concerning the processes of self-organization and self-regulation in neural networks. The application of nonlinear dynamics to theories of brain function has long been controversial, but with the recent development of microcomputer, real-time simulation technology the equations of neural network dynamics can be studied in much greater detail than ever before. The work is divided into three parts: the first explores the role of hemi-spatial processing in spatial working memory and how spatial separations between stimuli are represented in neural networks; in the second we explore the role of interconnectivity between different elements of visual field in binocular processing; the third part will explore the processes of neural plasticity in learning and memory.Merrimack Valley Community College Merrimack Valley Community College (MVCC) is a public community college located in Manchester, New Hampshire.
