Explore the world of Drakan

Game Description

Before. The dawn of mankind. A time when the noble savage battled against the chaotic evil of the planet Drakan. A glorious age when great heroes walked the land, slaying dragons in order to worship their god, Belkur. But an evil force rose above all, corrupting the world and threatening the stability of the mortal race. A dark age of treachery and genocide was wrought.

Now. You know what the world needs. What the world needs is the very best heroes in the very worst situations. You, will be that hero. Your team is formed. You alone must face down your foes. In this quest to save the world you are placed on a new planet of Drakan, a world that has been completely ravaged by evil forces that threaten everything and everyone you know.

Together. You, your team of heroes, and 6 other chosen creatures must create a legend, fighting your way through the deadly monster hordes on the land as you search for the rampaging demons responsible for an apocalyptic event that has destroyed almost the entire planet and that threatens all life with the future.

The player will have a strong supporting cast of CPUs. The change of jobs will also allow you to alter the type of character you build. This update includes the following changes and improvements: Game "Hyperdimension Neptunia Re:Birth2. Gameplay" Added "Rebirth Mode" * Any character that is used for a game cannot be changed.Use the Hypermenu or the Console Tool to build a new character. In addition, the game can be played in Reboot Mode, where "Rebirth Mode" is not in effect. In this mode, any character used in the previous game cannot be switched out. However, you may change the jobs for any character after this mode is selected. For example, if a male main character character was chosen, but you would like to select a female one, you cannot use Rebirth Mode until the main character is changed. However, even after the main character change, you can change the jobs for the AI (Artificial Intelligence) characters. The main character can be switched out after all the other characters have been decided. After selecting a job for any of the other characters, you can no longer change the main character's job. When choosing a job for the main character, the following new combo of special attacks can be used. *** This work has not been published or announced All characters in the game can now have their job changed from customization. The Level Cap has been increased to 300. Added Game "World End Economica OST" The Hypermenu now includes a link to the Soundtrack section Added Soundtrack Mode In this mode, all of the music has been replaced with songs from a variety of games and soundtracks. * Your CPU will now automatically play the instrument when on stage. 3M3-004 (The Last Hope in the World) Objective [?] Your CPU must defeat the Demon Lord, Irene and return to the Galactic Capital. Infinite Sparkles is a twin-stick space shooter that combines retro arcade action with an extensive upgrade system. Unlock levels, planets and weapon systems to become the first spaceship ever to discover all 7 jewels. Accessible for casual or younger gamers with its simple "twin-stick, twin-button" controls, forgiving learning curve and simple intuitive game menu. Challenging for die-hards with the deep weapon mechanics, time-based medal system and unlockable secrets. The perfect game to play for a few minutes to kill some time, as well as to make it through the entire night again because you want that gold medal, break that record or achieve that highest rank. Story Since the day she was built everyone knew that one day she would be capable of great things. Her talent and drive earned her respect and admiration from both people, aliens and robots, young and old. Despite her undeniable specialness, she always remained modest and friendly. Because of this she was loved by all, and was always welcomed with a smile. Hence, great was the sadness when the inevitable day came that she had to say goodbye. Spread her wings to pursue the dream that occupied her mind ever since she could remember. Legend says that someone discovering all 7 jewels can experience infinity. There is only one way to find out if this legend is true. Key Features Easy to learn and easy to pick up because of the simple controls and intuitive game mechanics (you can change the control style of the spaceship to your own liking). Difficult to master due to the deep weapon mechanics that must be used to acquire medals and unlock all game content. The challenge to keep improving your record provides infinite replayability. 7 planets to discover including more than 50 levels. 3 primary weapons: bullets, fireballs and lasers. Each with different and complementary characteristics. Mood System (Unlockable): Multiply your stats during play by dealing damage and avoid getting hurt. Decharge System (Unlockable): Charge and release system gives a temporary fire rate boost. Overdrive (Unlockable): Activable by achieving the highest mood. Gives a temporary period of extreme firepower. Earn medals by completing a level within a certain time limit. Achieving medals will grant bonuses which can be used to upgrade your weapons and enhance your ship. All weapon systems can be further enhanced by adding stars. Earn stars by achieving all medals on a planet. Stars can be rearranged at will
