**The High Magician's Handbook** The High Magician's Handbook is a 1995 American fantasy novel written by Diane Duane, the first in a series of five books of that title. The book is set in the Forgotten Realms, the fictional setting for most of the Dragonlance series, and the novel is set in a world very similar to its own, but includes differences as well. Plot The High Magician's Handbook follows an adventurer named Daren Drayde. He is freed from his journey, where he had been captured and enslaved by orcs, and finds out that his brother, Drake Drayde, has been killed and that he has the magic ring which he inherited from his father, Sorin Drayde. This opening makes him the High Magician of the Realms and the leader of the court wizardry school, House Drayde. Other members of the Drayde family include his parents and aunts and uncles, who also reside in the family manor. Daren returns home to the family manor, only to find that House Drayde is in the hands of his antagonists, the drow. Despite his family history and fame, he is unable to aid them against the army of drow invaders. At one point, he is captured by the mastermind behind the invasion, Lhazaar, who believes that Daren is the true heir to the House Drayde title and the only person who can oppose him and stop the invasion. Lhazaar binds his magic ring onto Daren's finger and tells Daren that he holds him responsible for the death of his family. The drow eventually release him, but he cannot locate his ring, which is eventually obtained by Daren. It is revealed that Lhazaar plans to use Daren's ring to exact revenge on all other wizards, and lead them to his kingdom of Lolth in a crusade to take over the realms. During the course of his battle against the drow, Daren acquires information on drow magic, which he must use to defeat Lhazaar's armies. He also travels to the nearby city of Evenne, the home of the dragon Forlorn. There, he meets the dragon's children Daira and Sy
