Haring J, Jansen L: Dental radiography: principles and techniques, ed 3, St. Louis, 2006,. Gulliver's Travels by Jonathan Swift pp xvi, xx, 156, 156-157, 158-161, 162-164, 165-167, 168-170,. Luong TX, Shariat M, Chien WC, Jansen M: Hydrogen peroxide and ferric ions induce preneoplastic lesions in rat nasal mucosa. J Pathol.. "Intro to Computer Science, Bootcamp, Badges And Certifications", "A Intro To Computer Science". Jansen Howerton L: Dental radiography: principles and techniques, ed 3, St. Louis, 2006,. Google Books Result at, 129-. Category:Skeletal systemQ: "спросить" or "спросит"  
What is the meaning of "спросить"? I suppose this word is very related to "попросить" and "попросит". Which one of these options is more common? When should I use which one? A: Спросить is the same as попросить — to request from someone. Спросить is more colloquial, while попросить is somewhat formal. A: Both are used pretty much equally. What is used very differently is a verb that has a very similar meaning to попросить: многословить. This is literally used to "multiply" something (you can use this word as a verb), "the request is to multiply the amount" or "the request is to multiply the usage". Example sentence: ВИНКИ НАСА НА ЛИТЕРАТУСЕ СТАЛИ МНОГОСЛОВИТЬ

Q: GLSL Texture2D uniform issue I want to make textures work with WebGL. I already made working opengl textures, but i want to just use texture2D uniform. Currently i don't have any textures, for two uniform sampler2D uTexture;. When i firstly changed my shaders the uniforms were not set, even though i had made sure to define them with WebGL. (glslValidate()) I got a shader error, with the error message: "glslValidate failed. shader: 1, location: 4, length: 4". Then i added this to my vertex shader: layout(location = 0) out vec4 FragColor; void main() { FragColor = texture2D(uTexture, vec2(0.0, 0.0)); } This resulted in an error message, which said: "glslValidate failed. shader: 1, location: 4, length: 4" Now my question is: How do i set a texture2D uniform? A: First of all, glslValidate will not help you with this issue, it's a static error checking tool. Next thing you need to know is that uniforms are only available at vertex shader stage. So you need to write, layout(location = 0) out vec4 FragColor; outside of the vertex shader. So for your case you need to write, layout(location = 0) out vec4 FragColor; layout(location = 0) out vec4 FragColor; and that should work. Please note that layout(location = 0) is only used if you have several vec4 attributes, all of them having the same size. Let me know if that fixes the issue or if you need more 6d1f23a050
