It was the successor to Konami's Virtua Tennis series, but unlike the rest of the Virtua Tennis series, it was not a series of stand-alone games, but a series of tennis sets for the SNES, Sega Saturn, and PlayStation. The original release of the game contained three sets of characters, Tennis Tour, ATP Tour, and WTA Tour. Virtua Tennis 4 was the first game in the series to allow 3-D polygonal sports action in contrast to the 2-D gameplay of Virtua Tennis 3. It was also the first game to use the Source engine and to be released after the debut of the original Xbox in the United States. Gameplay Unlike Virtua Tennis 3, Virtua Tennis 4 does not follow the top-down perspective of the series' previous games. However, the structure of the game is similar in that the player is used to select and control a character and then hits the ball at the other players. This game features a wide array of mini-games such as hitting the ball with rackets while doing aerobics or table tennis, and so on. Also like in the previous games, each player is equipped with a racket that features different attributes including power, spin, and speed. In addition, there are four game modes: Career, Team, Tournament, and Quick. The career mode is a single-player mode. In it, players compete in tournaments and earn experience points for winning these events. The player's characteristics such as experience level, ranking, and equipment can be saved as profile information. Players can freely switch between modes during play. The Team mode allows teams to compete to win, for example, as a doubles or singles team. Each team consists of three different characters, for example, a man and a woman as a partner, two women and one man, etc. In the Tournament mode, multiple players compete against each other in tournaments and score points. A player can join a team or wait to play against another player. The Quick mode, which was added for the first time in Virtua Tennis 4, was removed in the subsequent versions as the events and opponents become random. Also, unlike Virtua Tennis 3, there are no
