6

Navigation (800x480) is a software application for navigation on Wince devices. It provides a user-friendly interface for entering destinations, calculating routes, and displaying maps. The software is designed to be used on handheld devices with a screen resolution of 800x480 pixels. It supports various map data formats and can be used for both offline and online navigation. The application is available for download from the manufacturer's website.
